National Poll on Children's Health

Vol. 11 Issue 1 ■ October 11, 2010

Parent Views on Medical Research for Children — Survey questions

Each year, millions of federal dollars are used to support medical research.

Q1. The following list contains different types of medical research. Please rate whether you think these types of research are important for children's health.

Select one response in each row.

Research about...	Very important	Somewhat important	Not important
Leading causes of injuries in children			
Effectiveness and safety of medicines that may be given to children			
Safety of vaccines given to children			
New treatment for a <u>common</u> childhood disease			
New treatment for a <u>rare</u> childhood disease			
Foods that <u>might cause</u> cancer			
Foods that <u>might protect against</u> cancer			
Things in the environment that can lead to health problems in children
