

## Allergy Medicine – Survey Questions

Questions were answered by parents with children age 6-12.

Q1. In the last year, have you given over the counter (OTC) allergy medicine to your child?

1. Yes
2. No
3. Unsure

Q2. Why did you give OTC allergy medicines to your child?

|                                    | Yes | No |
|------------------------------------|-----|----|
| To prevent allergy symptoms        |     |    |
| To treat specific allergy symptoms |     |    |

Q3. In the last year, when giving OTC allergy medicines to your child, did you:

|  | Yes | No |
|--|-----|----|
| Give medicine you already had in the house |     |    |
| Purchase medicine                          |     |    |

Q4. Did you give your child OTC allergy medicine that was specifically labeled for...

|          | Yes | No | Don't know |
|----------|-----|----|------------|
| Children |     |    |            |
| Adults   |     |    |            |

Q5. For the adult OTC allergy medicine, what dose did you give your child?

1. Regular adult dose
2. Partial adult dose
3. Don't remember

Q6. When you gave OTC allergy medicine that you already had in the house to your child, did you check the expiration date?

1. Yes
2. No
3. Don't remember

Q7. Have you received advice from any of the following on which allergy medicine to give your child?

|                              | Yes | No |
|------------------------------|-----|----|
| Friend or family member      |     |    |
| Pharmacist                   |     |    |
| Someone at a doctor's office |     |    |

Q8. Please indicate how much you agree or disagree with each statement.

|   | Strongly disagree | Disagree | Agree | Strongly agree |
|---|-------------------|----------|-------|----------------|
| It is hard to figure out the dose of allergy medicine for a child |                   |          |       |                |
| OTC cold and allergy medicines have the same ingredients          |                   |          |       |                |

Participants were also asked demographic questions on gender, race/ethnicity, annual household income, education and insurance status.
